THE STORY

Barricas wines are produced with hand-harvested grapes from Tunuyan and Tupungato in the Uco Valley of Mendoza, one of Argentina's top wine regions.

Winemaker Jose Hinojosa conveys a varietal typicity in his Cabernet Sauvignon and Malbec.

PHILOSOPHY: Respecting the land and harnessing the treasure it holds, Hinojosa shares the same goal of producing excellent wines today as they did back when Don Silvestre first planted the first vines, inspired by the purest and most noble elements of nature.
