

Parvada Cardenal

THE FACTS

COUNTRY: Mexico

REGION: Coahuila

THE STORY

Vinícola Parvada was born when its five founding partners recognized that Parras de la Fuente, Mexico, was the perfect place to develop the project they had been dreaming of. With a long history in real estate development and passion for the world of wine, the idea of creating a country-style subdivision surrounded by vineyards and walnut trees and a wine cellar where they can make and show their own wines, was a dream that could not wait. Today, and with that origin, Vinícola Parvada has become, since its foundation in 2017, one of the most important projects on the national scene.
