THE STORY

Grown and produced by the Torre Zambra winery, this uniquely labeled wine carries all the varietal typicality we love about Montepulciano d'Abruzzo. Smooth, fruity, chocolatey - what more do you want?

Idi di Marzo, or the Ides of March, carries a connotation of betrayal, sadness, and cosmic misfortune due to the events surrounding Julius Caesar's untimely end. However, the date originally signified the new moon of each month, and at one time was even the start of a new year. This wine simply reminds us that with each full moon comes the dawning of a new day.
