AGING: Aged on the lees for 4 months, then bottled in spring to loc

THE STORY

The Cave de Saumur was the first cooperative launched in the Loire Valley. It handles fruit from its 160 growers, each having an average holding of 10 hectares. Wines are produced from 10 different AOCs. In addition to the numerous efforts from the whole team as well as from the growers who bring their grapes in order to produce the best wines for their customers, the Cave de Saumur has been aware of environmental issues for a long time. Thus, all the treatments and cultivations practices aim at impacting nature as little as possible.

THE ADJECTIVES
