

Lubanzi

Rainboat PetNat

THE FACTS

COUNTRY: South Africa
REGION: Western Cape
APPELLATION: Swartland

THE STORY

Born in Cape Town and named for a wandering dog who led two young travelers backpacking across South Africa's Wild Coast, Lubanzi is a sustainable and socially-conscious wine co. that focuses on crafting fairly produced wines that punch above their weight and are a true force for social & environmental good. To that end, we're proud to be Fair Trade, Carbon Neutral, a 1% for the planet member & a Certified B Corporation.

Hailing from South Africa's rugged and iconic Swartland region, our focus is on producing real wine made by real people from a real place — limited intervention in the cellar, natural fermentations and native yeasts — genuine stuff with genuine personality. No gimmicks, just well-crafted wines from the world's oldest soil.
