

Vins Pepe Raventos

Ancestral de la Vinya del Mas

THE FACTS

COUNTRY: Spain

REGION: Catalunya

THE STORY

The wines of Pepe Raventós are the fruit of his passion for viticulture and the selection of native grape varieties in unique and different soils that give these wines the breadth and complexity we seek.

The objective is to produce authentic, well-balanced wines, allowing the terroir to fully express its intrinsic nature.

The vineyard is cared according to the biodynamic and organic principles, respecting the soil and its ecosystem, in order to maintain a balanced environment.

Once the grapes have matured, the wine can be allowed to develop with minimal intervention in the cellar. Yeast, sugar, chemicals and temperature control are not used in the winemaking, making the process as natural as possible.
